PROTECTOSEAL[®]

Safety Cans

Protectoseal safety cans provide a safe and convenient method of handling flammable liquids. They are designed to reduce the risk of spillage and the release of flammable vapors. Their rugged construction exceeds OSHA and NFPA requirements for approved safety can devices. Our popular models have been tested and approved by FM and/or UL. Choose from a wide variety of sizes and styles to meet your needs.

Type I Safety Storage Cans

Exclusively from Protectoseal . . . Your Choice of Two Series of Type I Safety Cans

Features

- ▶ Built from rugged heavy-gauge ZIACOTE™, a lead-free coated steel that maintains outstanding corrosion resistance
- ▶ Spring-operated, self-closing cap automatically opens to allow expanding vapors to escape
- ▶ Electrically welded and lap-joined seams prevent leaks and provide maximum strength
- ▶ Double-wall shock rim and raised bottom strengthen and protect the sides and bottom against damage
- ▶ "Shock-guard" carrying handle shields dispensing lever
- ▶ Ergonomically-designed handle and linkage prevents possible spillage
- ▶ Locking flash arrester prevents entry of external flames
- ▶ Rugged, leak-resistant, gasket in spout cap
- ▶ Backed by Protectoseal's Limited Warranty Program

Funnel Attachment

- ▶ Models fit "Protectoseal Plus Series" and "Protectoseal Series" Type I Cans
- ▶ Choose from metal or polyethylene construction
- ▶ Easier dispensing into small openings

Protectoseal Plus Series™

- ▶ Perforated-metal flash arrester provides 33% faster fill rate
- ▶ No-drip lip design
- ▶ Leak-resistant leather gasket in spout cap
- ▶ Also available in 316 stainless steel with a Teflon® gasket

No. 4615C

Protectoseal Series™

- ▶ Double-mesh flash arrester
- ▶ Leak-resistant composite gasket in spout cap
- ▶ Competitively priced

No. 3615

Type II Safety Dispensing Cans

Protectoseal's Type II Safety Dispensing Cans feature the same rugged design and heavy duty construction as Type I Safety Cans and are used for convenient dispensing of flammable liquids into vessels, cans or tanks which have a small receiving opening. Type II cans are commonly identified by their separate fill and dispensing hose that eliminates the need for a funnel and provides a bonding path to prevent static sparks.

Type II cans have perforated-metal flash arresters at both fill opening and base of pouring spout for complete protection from fire. They're offered in both round or space-saving oval shapes in ZIACOTE™ construction with spring-loaded filler caps, featuring treated leather gaskets. Most models are available in "Flammable Red", "Kerosene Blue" or "Diesel Yellow" for a variety of liquid dispensing applications.

PROTECTOSEALTM

Safety Storage Cabinets

Protectoseal safety cabinets provide safe, centralized storage of flammable liquids at convenient close-to-the-job locations. Workers' time-consuming trips to remote storage rooms are reduced or eliminated entirely. Our cabinets are built to the highest quality standards and meet or exceed all NFPA and OSHA criteria. Available in a wide variety of heights, widths and depths for safe storage of up to 60 gallons of flammable liquids in cans or 110 gallons of combustible liquids in drums.

Choose from our full-featured "Protectoseal Plus Series" or the competitively priced "Protectoseal Series" models. Both are designed and built to comply with NFPA 30 and OSHA 29 CFR 1910.106 construction specifications. Many models are available with FM Approval.

Features

- ▶ Heavy 18-gauge steel, double-wall construction provides strength, rigidity and fire protection with 1-1/2" air space
- ▶ Adjustable leveling feet provide a wobble-free base on all floor conditions
- ▶ Built-in grounding connector allows for a secure ground wire connection
- ▶ Dual vents with integral metal flash arresters prevent ignition when mechanically vented
- ▶ Liquid-tight 2" bottom well prevents leakage from accidental spills
- ▶ Continuous door hinges & 3-point closure with lock and keys provide reliable opening & closing of doors
- ▶ Optional self-closing door mechanism
- ▶ Industry exclusive Z-bar reinforced construction in walls & top ensures stability and proper door alignment
- ▶ Exclusive 5-point shelf support at 1-5/8" intervals holds heavy loads while adjusting to various-size containers
- ▶ Backed by Protectoseal's Limited Warranty Program

Protectoseal Plus SeriesTM

Protectoseal's famous full-featured safety cabinets which are the standard of the industry. They're backed by Protectoseal's exclusive 5-Year Limited Warranty program.

- ▶ "Z"-Bar reinforced construction adds rigidity and stability
- ▶ 5-point shelf support at 1-5/8" intervals
- ▶ Spark-proof metal locks and closure contact points
- ▶ Bench and wall-mountable models available

Protectoseal SeriesTM

Quality-built safety storage cabinets at competitive prices. Backed by Protectoseal's 2-Year Limited Warranty Program

- ▶ Competitively priced
- ▶ Stackable models available
- ▶ Bi-fold, self-closing models available

Salvage/Overpack Drums

Protectoseal's Salvage/Overpack Drums meet or exceed performance-oriented packaging requirements of UN and DOT Regulations.

Their UV-protected polyethylene construction provides excellent chemical and corrosion resistance. Available in a variety of different sizes to meet all your needs.

The twist-down lid incorporates a closed-cell gasket to maintain a tight closure seal. Patented castellations in the lid allow for easy closing with a pole or two-by-four.

Patented ribbed/molded design provides extra strength and allows for easy gripping and pick-up by material handling equipment, light weight and nestable for efficient storage.

Large-Capacity Overpack Drums

600 and 180-gallon capacity overpack drums are designed specifically for the storage and transport of large transformers. Ideal for use by utilities.

Mobile Waste Collectors

Caster-mounted containers simplify the collection of waste oil, antifreeze and hazardous chemicals. UV-stabilized polyethylene for excellent chemical and corrosion resistance. Both models come equipped with a castered drum dolly and with Cat. No. 72702 Drum Funnel to eliminate over-spills while allowing multiple oil filters, pails and cans to drain at once. Choice of either a poly or steel-inner 55-gallon drum.

Liquid Concentrate (1 to 5)

Flavors: Grape, Lemonade, Orange, Fruit Punch, Strawberry, Lemon-Lime, Tropical Cooler, Cherry, Cool Citrus, Mixed Berry

Pkg. Size	Pkg. Yield	Case Yield	Units per case	Cases per pallet	Case weight
