

SURFACE SHIELDS

Carpet Protection

"Carpet Shield lets our customers get on with their work without having to worry about damaging carpeting. It saves them time and money."

Doug Ray, Product Manager
The Cronin Company
Portland, Oregon

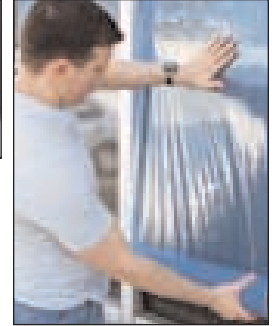

Professional Applicator

With our new versatile applicator, you can apply floor protection quickly and easily. Its unique design accommodates 24, 30 and 36" rolls. A 48" roll applicator is also available.

Window Shield™

Use WINDOW SHIELD to protect against over-sprays, mortar stains, stucco residue and more!

With WINDOW SHIELD there is no more scraping and cleaning or damage to the glass surface. Protect your windows and glass with WINDOW SHIELD and save time, labor and money. We offer three different products that range from short term to long term protection. **Available in blue or clear.**

Stock Sizes:

21" x 30' P.O.P. Standing Display	24" x 500' Reverse Wound
21" x 30' P.O.P. Shelf Display	24" x 1000' Reverse Wound
21" x 30' P.O.P. Counter Display	30" x 200' Reverse Wound
21" x 200' Reverse Wound	30" x 200' Stair Shield
21" x 1000' Reverse Wound	36" x 200' Reverse Wound
21" x 1000' Regular Wound	36" x 250' Reverse Wound
24" x 50' P.O.P. Standing Display	36" x 500' Reverse Wound
24" x 50' Refill Box	36" x 1000' Reverse Wound
24" x 50' P.O.P. Shelf Display	48" x 500' Reverse Wound
24" x 200' Reverse Wound	48" x 1000' Reverse Wound

Stock Sizes:

W2 Clear or blue tinted self-adhering, 2 mil polyethylene for protection for up to 45 days:		
12" x 600' blue	24" x 250' clear	24" x 600' blue
12" x 600' clear	24" x 500' clear	36" x 250' clear
W3 Clear self-adhering 2 mil polyethylene film with a UV inhibitor for protection for up to 180 days:		
24" x 250' clear		
W4 Blue self-adhering 3 mil PVC film for protection for up to one year (acrylic solvent based adhesive system):		
24" x 600' blue		

Floor Shield Hard Surface Protection

FLOOR SHIELD® is a green tinted, self adhering protective film for hard surfaces, such as tile, marble, granite, vinyl, VCT, laminates and factory finished hardwood. It also can be used to help prevent damage to tubs and counter tops. It is a true multi-purpose product!

For Remodeling, Painting, Moving, Model Home Tours, Parties

Stock Sizes:

21" x 20' Standing Display	24" x 200' Reverse Wound
21" x 20' Shelf Display	24" x 500' Reverse Wound
21" x 20' Counter Display	36" x 250' Reverse Wound
	36" x 500' Reverse Wound

Blue All Purpose Tape

BLUE ALL PURPOSE TAPE is a low cost alternative to clean peel masking tape. For all professional floor masking needs, it holds carpet pad, sheet vinyl, hardwood or laminate in place. Can remain applied for up to seven days and still remove cleanly.

Stock Sizes:

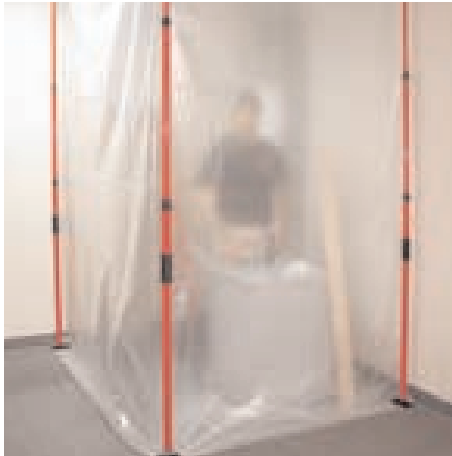

2" x 180' roll, cas of 24 rolls

SURFACE SHIELDS

Dust Shield™ Adjustable Poles

This unique system makes constructing temporary walls to control dust quick and simple! The DUST SHIELD jack locks the screening material firmly against the ceiling. The DUST SHIELD dent resistant poles can be extended up to 13 feet. Both the DUST SHIELD jacks and poles have no breakable plastic parts and are re-usable.

Consists of: Each kit contains two locking jacks and two poles.

VISQUINE poly sheeting sold separately.

Stock Sizes:
12' x 100' 4 mil

Zipper Doorway System

ZIP n CLOSE™ can create any size doorway with poly sheeting or canvas to control dust, reduce heat loss or create an instant entrance or exit to any closed area. For interior or exterior use, ZIP n CLOSE is perfect for all types of construction. And it meets federal containment specifications for asbestos removal.

Consists of: 3" wide x 7' long zipper (with pressure sensitive backing) 2 end pieces and 2 velcro tabs.

Stock Sizes:

- ▶ Shelf display of 12
- ▶ Clip strip of 6; 8 per case
- ▶ Double pack

CLEAN MAT is a polyethylene film mat with a tacky surface that removes dust and dirt from footwear and prevents it from being tracked in. Each mat contains 30 sheets which are tabbed for easy removal of each layer. CLEAN MAT stays firmly in place and is easy to use and dispose of. (Do not adhere to carpet surfaces.)

Stock Sizes:	Both sizes available in white or blue
24" x 36"	
36" x 36"	

Flooring Protection

Whether you need temporary protection for carpeting, wood floors, tile, marble, vinyl or other surfaces, Surface Shields has got you covered. You'll find their extensive array of products will fit your needs. See why flooring professionals have made Surface Shield their first choice.

Carpet Shield

For temporary carpet protection **CARPET SHIELD** is an indispensable tool for remodelers & builders.

Applicator

Floor Shield

Easy protection for hard surfaces such as tile, marble, granite, vinyl, laminates, etc.

Multi Shield

Perfect for hardwood floor protection, also stairs, counters and tubs. Padded to prevent scratches and dents.

Base Shield

BASE SHIELD provides a protective barrier between wall trim and carpet during carpet installation.

Tub Shield

TUB SHIELD is a reusable kit that protects tubs from chips and scratches during remodeling.

Blue Tape

For all professional floor masking needs.

Trim Shield

A 6 mil PVC tape that protects aluminum & vinyl clad doors, window trim, thresholds, etc.

Clean Mat

Polyethylene film mat with a tacky surface, ideal for reducing tracked-in dust and dirt.

Water Shield Reinforced Kraft Paper

Moisture resistant and reusable.

Applicators

This is a time-saving tool for remodelers & builders.

Dirt Grabber

Removes dirt, dust and grime from your shoes, and keeps the floor surfaces cleaner.

Dust Shield Adjustable Poles

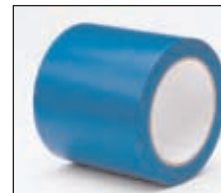

Create temporary walls to control dust and heat. One person can put it up in

Zip n Close Zipper Doorway System

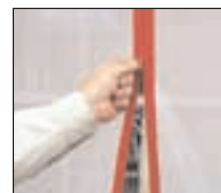

Control dust, reduce heat loss when combined with poly sheeting or canvas. For interiors and exteriors.

Base Shield

Trim Shield

Zip n Close

Vac-Assisted Power Tools

Creates a virtually dust free environment, providing greater visibility while enhancing productivity. Used with Nilfisk and CFM vacuums.

Grinder

Effectively grinds and removes hazardous and non-hazardous coatings, paint, and rust. The floating shroud design allows for excellent visibility. The Grinder will accept most coated abrasive and surface-conditioning products.

- ▶ Ergonomic design reduces operator fatigue.
- ▶ Meets OSHA safety standards for the collection of hazardous dusts.
- ▶ Bull nose shroud for greater worker visibility.
- ▶ Replacement discs are readily available.

Random Orbit Action Pneumatic Sander

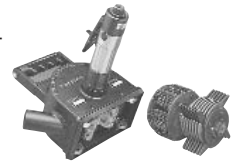

This sander is ideal for finish sanding, sanding aluminum, and working on fiberglass. "Through-the-pad" suction allows for excellent dust control and visibility while working. The ergonomic design of the sander reduces operator fatigue.

- ▶ Air-efficient motor with Positive-Action Drive is backed by 4-support bearings and powers a unique oversized head for full-contact sanding.
- ▶ Minimal vibration reduces operator fatigue.
- ▶ Ideal for use with a central vacuum system.

Roto Scaler

Grinds, profiles and cleans surfaces, allowing the operator to remove coatings within 1/4" of vertical surfaces. The Roto Scaler can be applied to concrete grinding, weld preparation, pipe cleaning, surface profiling and surface preparation. With its lightweight and interchangeable abrasive heads, the Roto Scaler can remove up to 150 square feet of paint per hour while achieving SP-11 cleanliness.

- ▶ OSHA safety standards for the collection of hazardous dusts.
- ▶ Gets close to walls.
- ▶ Matches correct type of abrasive to select material.

Mini Die Grinder

The Mini Die Grinder effectively grinds and removes hazardous and non-hazardous coatings, paint and rust. Its compact design makes it ideal for use in tight areas. The fixed shroud design allows for excellent visibility and access into right angles. The Mini Die Grinder will accept most coated abrasive and surface-conditioning products. It can also be used with a variety of Nilfisk or CFM HEPA-filtered vacuum cleaners, creating a specialized vacuum system that ensures a safe and dust-free work environment.

Needle Descaler & Mini Needle Descaler

Remove hazardous and non-hazardous coatings, paint, stucco and rust. They are ideal for coating and corrosion removal in tight areas, including inside corners, flanges, windowsills and door jam cleaning. The Needle Descalers also have a very efficient, dust-free shroud design. They are specifically designed to be very durable, requiring little maintenance.

- ▶ Meets OSHA safety standards for the collection of hazardous dusts.
- ▶ Bare metal surface preparation allows for better adhesion between new coating and substrate.

Sawzall

Top of the line reciprocating saw coupled with a dust- and debris-free shroud, the Sawzall performs heavy-duty cutting operations while providing maximum dust control. It is ideal for cutting out door or window frames, or cutting out panels or holes.

- ▶ Cuts through wall board, plaster and wood up to 1" thick.
- ▶ Uses multiple cutting blades.

Random Orbit Electric Sander

Ideal for coarse or fine sanding on medium and small surfaces. Durable, and practically silent, the sander—when combined with a Nilfisk or CFM vacuum—extracts dust immediately. The ergonomic design of the Sander is designed to reduce operator fatigue.

- ▶ Good handling thanks to lightweight, low-vibration operation and ergonomic construction.
- ▶ Quick release hook-and-loop fastening of sanding sheets.
- ▶ Aluminum-reinforcement, polyamide motor housing.
- ▶ A variety of models are available, including random orbit, rotary and triangle sanders, in multiple sizes.

Drill Shield

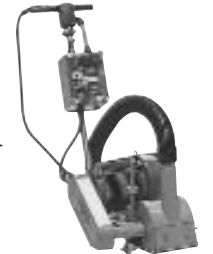

Professional quality hand tool for the effective control of toxic and nuisance dust while drilling or cutting holes. Engineered to attach to most drills and work as a single unit, a standard 6" drill bit can penetrate materials easily while a rubber-pleated casing captures the extracted dust. As the material is drilled, the drill nozzle compresses without hindering operation and ensures that the bit is shrouded and the dust is contained. Ideal for plunging holes in a variety of substrates, the precise pairing of vacuum and tool is designed to comply with OSHA standards

- ▶ Universally tailored to fit a range of drills, including standard and hammer drills.
- ▶ Specifically designed to accurately position the bit to begin drilling.
- ▶ Does not require special operating procedures.

Floor Abrader

Removes hazardous and non-hazardous coatings, rust, and non-skid from various floor surfaces quickly and easily. Its dust-free capabilities comply with OSHA safety regulations for the collection of hazardous dust removal meeting SP-11 specifications. Highly maneuverable for surface profiling, surface cleaning, scarifying, grinding and VAT mastic removal.

- ▶ Up to 400 square feet per hour.
- ▶ One-man operation.
- ▶ Removes coatings within 1-1/4" of vertical surface.
- ▶ Interchangeable abrasive heads, quick-change abrasive heads.

TRELAWNY[®]

TFP-9 Scarifier

Perfect choice for the toughest applications. This rugged 9" downcut machine makes quick work of the most demanding concrete cutting and grinding applications. Our heavy duty six shaft cutting drum loaded with tungsten carbide cutters will tackle

- ▶ Removal of Coatings systems from floors
- ▶ Grinding uneven areas and joints
- ▶ Non skid coatings removal
- ▶ Grooving for creating non slip surfaces
- ▶ Large area rust and scale removal

Features And Benefits

- ▶ Uni. frame construction prevents frame twisting.
- ▶ Heavy duty 6 shaft cutter drum increases cutter and hub life while increasing productivity.
- ▶ Powerful 8 hp Honda motor is standard.
- ▶ Locking Height adjustment assures cutting accuracy.
- ▶ Cutter Engage/Disengage lever allows you to transport the machine while running without altering the cutting depth.

Part No. & Style	Cleaning Path	Drive Motor	HP	Hub Type	Width	Wt. lbs.
329.9000	9"	Gas / Honda	8	Six shaft / cutter	16"	210
329.9003	9"	Air / 80 SCFM @ 90 PSI	5	Six shaft / cutter	16"	205
329.9005	9"	220 volt 25 amp electric / single phase	4	Six shaft / cutter	16"	223

Shrouded Floor Scaler & Scabber

Both Scale Force 11 and the new "Impact" Scabber are ideally suited for thick coating removal and surface preparation on large areas. The lighter scale force 11 is designed to provide rapid scale or coatings removal for steel substrates. The newly released "Impact" 11 head Scabber makes quick work of the toughest material removal from concrete or steel. The impact is even capable of concrete removal of up to 1/4" in one pass, making it ideal for removing radioactive or PCB contaminated concrete.

Features And Benefits

- ▶ Durable steel shroud with urethane seal for improved dust capture over nylon brush types.
- ▶ Compact Body Design. Less than 12" across for work between structures . . . or up to 1" from edges.
- ▶ Solid Rubber Wheels permanently mounted for easy transport into confined areas.
- ▶ Lightweight. Scaler weighs only 82 lbs., easier to maneuver than competitive units. Scabber weighs 160 lbs. for the most demanding application.
- ▶ Special Double Rubber Mounting System virtually ends vibration to the operator . . . less fatigue.
- ▶ Multi-position Handle allows easy access under obstructions.
- ▶ Simple Operation/Transport Design. Lock and unlock in a flash.
- ▶ Powerful Piston Action.

Scaler—2300 blows per minute per piston. Scabber—2300 blows per minute per piston.

TRELAWNY

Roto-Peen Hand Held Scaler/Scarifier

These versatile, high production tools are ideal for coatings removal from both steel and concrete substrates. Quick change hubs with an assortment of abrasives enables you to remove everything from mastics, alkyds, and epoxy coatings rapidly and dust free. The Trelawny PPT can even remove coatings from piping and curved surfaces! If you need a tool that can do everything from profiling steel to removing hazardous coatings in a dust free environment, the Trelawny Peening Prep Tools are the tools that get the job done. Note: All PPT's are available in compressed air and electric drive configurations both 2" and 4" models

Features And Benefits

- ▶ The total package—one size power source maintains speed under load to maximize coating removal. Converts in a minute to accept other surface preparation products.
- ▶ US Patent Pending designed vacuum shroud engineered specifically for lead/contaminant removal maximizes capture of debris and virtually eliminates detectable dust emissions. Front and rear roller guides enable work on flat, narrow, and curved surfaces. Comply with OSHA and EPA standards easily when matched with TVS HEPA vacuums.
- ▶ Optional accessories include star cutters and hammer hub assemblies for tackling more demanding applications such as non-skid, PRC, and coal tar removal.
- ▶ Available either as separate tools or in kit form to cover a wider range of applications.

SSH Shrouded Scaling Hammers

Heavy duty percussive power combined with carbide tipped cutting heads equal rapid coating removal on both concrete and steel substrates, even for the most demanding applications. The heavy duty scaling hammers are ideally suited for "fracturing" thicker, tough to remove materials. Available in several distinct versions, Trelawny's shrouded scaling hammers are proven to be the choice for removing everything from high mil industrial coatings to thick laminar rust.

Mini Shrouded Right Angle Grinder

Problems grinding those tight, difficult to reach areas are now solved with the Trelawny M-SRA mini grinder. The fixed head design allows grinding and coating removal up to edges in corners and on irregular surfaces. The convertible design allows you to run 1.5" & 2" disks providing two grinders in one! The parallel vacuum takeoff allows you to grind in areas only 2" wide! Trelawny offers a vast assortment of abrasive for surface preparation on wood and wood trim as well as aluminum, steel, or casts.

TRELAWNY

Vacuum Shrouded Needle Scalers

The Angle Accessible Tools are a must for any power tool cleaning operation. Continually self adjusting needles conform to nearly any surface. The interchangeable cuffs allow for dust free coatings removal on difficult, irregular surface areas. Combine this with our legendary hitting power and you have a state of the art piece of equipment capable of rapid coatings removal with no harmful dust emissions. Some examples of cleaning capabilities are: Rivet heads, Corners, Edges, Weld seams, Steel door jams, Steel window sills, Bridge bearings, Tubing, etc.

THE PREMIER "INFRARED" TILE STRIPPERS ON THE MARKET, PERIOD!

- ▶ Reduces setup, clean up, and labor costs.
- ▶ Heated tiles can be lifted "intact" preventing the harmful release of dust or hazardous material.
- ▶ Removes up to six 12" x 12" tiles at a time! (1026 model)
- ▶ Massive 28" x 40" footprint! (1026 model)
- ▶ Rapid heat-up and cool down for efficient operation.
- ▶ All solid state electronics assure precision and reliability.
- ▶ Modular design, fully assembles and disassembles in less than 5 minutes for easy transport. These can even ship via UPS!
- ▶ Individual ceramic emitter strips on heat element are fully replaceable. No need to replace entire heat panel.
- ▶ All components are UL and CE listed and are covered by a one year warranty.
